PROFILE

I love developing, I breathe code, and I'm a programmatic web designer always exploring new technologies. I'm a Front-End Developer skilled in HTML, CSS, JavaScript, React, and Tailwind CSS. I work with Redux, Context API, React Query, and API integration using Axios and Fetch. I have experience with JWT authentication and am learning Next.js and animations. I use Git and GitHub for version control and stay updated with web trends to build responsive and engaging websites.
